FDCC Certificate for UmtAudit package
(FDCC: Federal Desktop Core Configuration Requirement)

The UmtAudit package includes three comprehensive software modules:

- UmtAudit Manager: (for PC) Version 2.1.0 (n13) or higher
- StatAudit: (for PC) Version 2.0.7 or higher
- UmtAudit: (for PDA) Version 2.1.2 (n13) or higher

1. UmtAudit package was tested using the tools from NIST (on the FDCC Site).
2. UmtAudit package has been tested to assure that it runs at "user level" (without elevated "power user" or "administrative" privileges) for the normal operation of the product.
3. UmtAudit package does not change the core configuration (registry) of the desktop during installation or use.

A handwritten signature in black ink, appearing to read "Charles Brassard", with a long horizontal flourish extending to the left.

Charles Brassard, P.Eng., M.B.A.
President
